

AI Idea Forge - Team Task Allocation

Member	Role	Responsibilities	Deliverables
Member 1 (You)	Frontend	• Design Dashboard • Design New Analysis page • Design Discovery Galaxy • Design Product Blueprint page • Responsive UI • Integrate Frontend with Supabase • Display realtime agent status • Display Product Blueprint	• Dashboard • New Analysis • Discovery Galaxy • Product Blueprint • Supabase Integration
Member 2	Workflow (n8n)	• Build Main Orchestrator Workflow • Create Webhook • AI Agent Execution Flow • OpenAI Integration • Supabase Integration • Error Handling & Retry Logic	• Main n8n Workflow • Webhook API • Workflow Documentation
Member 3	AI & Prompt Engineering	• Design prompts for all AI Agents • Optimize prompts • Standardize JSON responses • Test AI outputs • Prompt refinement	• Market Research Prompt • Competitor Analysis Prompt • Gap Analysis Prompt • Technical Feasibility Prompt • Business Feasibility Prompt • Risk Analysis Prompt • Opportunity Scoring Prompt • Recommendation Prompt
Member 4	Database (Supabase)	• Database Management • SQL Schema • CRUD Operations • Realtime Configuration • Database Testing • Performance Optimization	• SQL Scripts • Database Setup • Realtime Configuration • Database Documentation
Member 5	QA & Documentation	• Functional Testing • Integration Testing • Bug Tracking • GitHub Documentation • README • User Guide • Demo Script • Presentation Support	• Test Cases • Bug Reports • README.md • User Guide • Demo Script • Project Documentation
